The New Authoritative Work on Physical Culture

Health, Strength and Power

ВΥ

DUDLEY ALLEN SARGENT, A. M., Sc. D., M. D.

Director of Hemenway Gymnasium, Harvard University, ex-President of the American Association for the Advancement of Physical Culture.

Doctor Sargent's many inventions of the modern system of gymnasium apparatus, together with his numerous articles and papers on physical training, are so well known that a new and thoroughly upto-date work on Physical Culture by an author who is without doubt the recognized authority on the subject will command immediate interest. The general public are becoming more and more enthused on the science of cultivating Health and Strength. In this

work Doctor Sargent has aimed to make it even more popular by devising a series of exercises which require no apparatus whatever, for as he states "it is not the athletic or college student in whose life physical activity plays a considerable part, but the professional or business man, who leads a sedentary life, and has no longer the incentive of youth nor spirit of athletic rivalry to urge him on "

Dr. Sargent has been director of

Harvard's gymnasium since 1879, and his work there has made the students of the university, as a body—apart from those who engage in college athletics—probably the best physically equipped young men to be found anywhere. His exercises and methods have been adopted all over the world. Not only was most of the gymnastic apparatus now in general use invented by him and the manner of its use of his contriving, but many of the various drills devised to give exercise without the use of any more complicated mechanical assistance than dumb-bells and Indian Clubs.

With over one hundred half-tone illustrations from original photographs furnished by the author. 12mo cloth, limp cover. Price, \$1.75 net. Full flexible leather. Price \$3.00

The NEW LIBRARY of POETRY

Six charming volumes of Masterpieces.—Edited by Henry Van Dyke.—Review of Reviews for two years

FIFTY CENTS A MONTH FOR ONLY THIRTEEN MONTHS

DR. Van DYKE and his staff have searched thousands of volumes—in fact the whole field of American and English poetry,—to find just those particular poems that you want and that every household ought to have at hand just where father, mother, or children can easily get at the most beautiful productions of the master artists without wading through great libraries of books to pick them out.

The 500 Masterpieces in Verse The poems range from known date down to Bret Harte and Stevenson. Of all the libraries of poetry that have been published, we predict that this will take first place because of its compact, beautiful form, its new classification, and, chief of all, because of Dr. Van Dyke's labor of love in giving the selection the best thought available from the poet, critic and scholar best fitted to select the poetical masterpieces of the English language. This set will be an ornament and a resource for every one who reads English and who has any wish for an easy acquaintance with the highest thoughts and the inspired moods of the great artists in English literature.

A Treasure for Everyone Americans, who do not have time as a rule, to read poetry, will find the Masterpieces a godsend in enabling them to get in the easiest possible way some glimpse and knowledge of the most perfect poems of our language, knowledge that would otherwise escape.

THE OFFER

Send only 50 cents in stamps. A set of the books will be shipped for your approval at once, and your subscription for the *Review of Reviews* will be entered. If you like the set after examination, you make further payments of 50 cents a month for 12 months for the *Review of Reviews* for two years (regular price \$6) and the full set of six volumes. If you do not like this new library, you may return it at our expense and no obligation will be incurred.

The American Standard Bible

Edited by the American Revision Committee

is the ripe product of thirty years' intense study and labor by the most competent and accomplished scholars of the world, and should be used for the following reasons:

- 1. It brings the reader into closer touch with the original message and gives him a clearer understanding of God's word than any other Version of the Scriptures ever produced.
- 2. A larger number of competent scholars were engaged on this Bible than on any former translation.
- 3. These companies of translators spent a much longer time than ever has been given to any translation into any language.
- 4. This company of godly scholars had the benefit of all the previous translations back to Wiclif's Bible, 1380 A. D.
- 5. These Christian scholars had the use of the oldest and most valuable manuscripts, notably the Alexandrine, Vatican, and Sinaiticus, all three unknown to former Scholars.
- 6. These translators had at their command for comparison and consultation, the recent translations of the Bible which have been made by England, Germany, France, Holland, Denmark, Norway and Sweden.

7. The American Standard Bible has the advantage of three hundred years of growth and change in the English language.

- 8. The American Standard Bible has brought to its aid, Textual criticism, that wonderful science of recent years by which the validity and authenticity of manuscripts is determined.
- 9. The verdict of the best scholarship of the world after five years of examination and use, is almost unanimous, that this is the best translation of the Bible ever made into any language.

ON HOLY GROUND

BY REV. WILLIAM L. WORCESTER

Illustrated. 8vo. Cloth, \$3.00, net. Postage 31 cents extra

An interesting presentation of the Bible so arranged and introduced to appeal directly to the young reader. Dr. Worcester has not attempted to modify or change the language of the Bible, but has prefaced each story with sufficient explanation to make its meaning and its relation to the other stories entirely plain. The book is illustrated with over four hundred superb reproductions from photographs of the most interesting spots in the Holy Land.

HEROES OF AMERICAN HISTORY

By Frederick A. Ober

COLUMBUS

The career of the great explorer is followed in detail, and his personality set forth with striking clearness. Mr. Ober, under a commission from the United States government, has sought out what vestiges of the early settlements remain in the West Indies. These researches, together with his visits to Spain, have thrown much new and valuable light on Columbus's career, which is herewith presented.

CORTES

The exploits of Cortés, the conqueror of Mexico, read like romance. How this adventurer, a bankrupt Cuban planter, with a band of five hundred untrained soldiers, fought and intrigued his way to absolute power is the story told in this volume. Mr. Ober is a well-known authority on Spanish and Mexican history and an author of distinction in his chosen field.

Illustrated. Price.....net \$1.00

PIZARRO

Mr. Ober has given a full narrative of the remarkable man who, with only a handful of soldiers, subdued the vast empire of the Incas of Peru. The story of his adventures is full of fascination, and Mr. Ober has succeeded admirably in keeping the personality of Pizarro vividly before the reader, and in bringing the times in which he fought near to our own. The volume presents in condensed form a great deal that has hitherto been accessible only in bulky and inconvenient shape.

THE BIBLE STUDY UNION (BLAKESLEE) GRADED LESSONS FOR SUNDAY SCHOOLS AND BIBLE CLASSES

THE COURSE OF STUDY

RECOMMENDED BY THE INTERNATIONAL Y. M. C. A. COMMITTEE ON BIBLE STUDY

The Six Series

THESE LESSONS divide the Bible into three parts for study, namely: The Old Testament; the Gospels; and the rest of the New Testament; and take up each of these parts a year at a time in succession. They also divide the material in each of these parts into two classes: Biographical and Historical, making three series of each, or six in all, as follows.

BIOGRAPHICAL

Presenting the more important personal elements of the entire Scripture narrative, chronologically arranged.

First Series PATRIARCHS, KINGS AND PROPHETS

The lives of the twenty-two men most prominent for good in the history of ancient Israel, from Abraham to Nehemiah.

Second Series THE LIFE OF CHRIST

The story of our Lord's life from His birth to His ascension.

Third Series APOSTOLIC LEADERS

The lives of the six principal founders of the Apostolic Church-Peter, John, Stephen,

Philip, Barnabas and Paul.

COURSES AND GRADES These Biographical Series are arranged on the new four-course basis. Each series includes four courses, with seven grades, namely: (1) A Children's Course of truths and stories, in two grades, with the Teacher's Helper, for the Primary Department; (2) A Boys and Girls' Course of groups of stories, studied for their own sake and for the truths they contain, in two grades with the Junior Teacher, for the Junior Department; (3) A Young People's Course of connected biography, with its practical teachings, in two grades, with the Bible Study Manual, for the Main School; (4) An Adults' Course of doctrinal teachings, using the same Manual as the Young People's Course, for Bible Classes. This affords ample gradation of both material and methods, and is the latest, best and most satisfactory method of Bible Study for Sunday Schools.

HISTORICAL

Presenting a comprehensive and connected outline view of Biblical history from Genesis to Revelation.

Fourth Series OLD TESTAMENT HISTORY

The preparation of the world for Christ, as seen in the history of the Chosen People.

Fifth Series THE GOSPEL HISTORY

Christ's reception by men and His work on earth, as described by the four Evangelists.

Sixth Series APOSTOLIC CHURCH HISTORY

The result of Christ's work, as seen in the planting and growth of the Apostolic Church.

COURSES AND GRADES These Historical Series include three courses and seven grades, namely: (1) A Course of Selected Stories and Great Truths, in three grades, for the Primary Department; (2) A Course of Connected Biography or History, in three grades, for the Main School; and (3) A Course of Important Practical and Doctrinal Teachings, in one grade, for Bible Classes, thus adapting both material and methods to the needs of all classes from the youngest to the oldest. Each series is also accompanied by a Helper and a Manual, affording abundant aid in studying and teaching the lessons.

By the use of these lessons young people gain a familiar acquaintance with the Bible as a whole, and a comprehensive and connected knowledge of its principal events and teachings.

Books of More than Usual Merit

FICTION

The Hundredth Acre A Detective Story By John Camden

The mysterious death by poison of one Dr. Lloyd, at his Paris residence, starts a series of criminal investigations, which involve both American and English subjects. The denouncement is clever and surprising. \$1.50.

The Quincunx Case By William Dent Pitman

A detective story which is rational and perfectly plausible; none of its incidents and characters being surrounded by that preposterous atmosphere found in nine-tenths of the stories of this kind. \$1.50.

The House of Merrilees By Archibald Marshall

A story by a man who has proved he knows how to write. A story that will keep you up to the small hours of the morning. A story you will talk about. \$1.50.

Broke of Covenden

A remarkable novel that makes the fiction of the year pale in comparison. Mr. Snaith has produced a book that holds its own among those of Meredith, Dickens and Thackeray. It is the story of an English country family of the present day. \$1.50.

The Snare of Strength By Randolph Bedford

The most important novel that Australian literary workmanship has produced. It is a story of strong, active men and fascinating, delightful women. It depicts photographically Australian life in town and country. Surely Mr. Bedford has written an unusual and notable novel. Illustrated. \$1.50.

By Myriam Harry

The Conquest of Jerusalem

A haunting, powerful story having for its scenes Jerusalem and the Holy Land as they are to-day. It is a tale of social life in the European colony, with dramatic incidents. The theme is set in a background of wonderful pictures of the land, its religious rites, both Christian and pagan, of the desert with its Omar-like life. A story that grips one strongly. Illustrated. \$150.

The Stigma

An answer in the shape of a novel to Mr. Thomas Dixon's "Leopard's Spots." A remarkable story of life to-day in a small Southern town, with lifelike sketches of its inhabitants, of the prejudice against the slightest taint in the blood, with which neither virtue nor ability is able to cope. It makes the reader's blood run hot in its depiction of the utter depravity of the white man. \$1.50.

Back to Arcady, A Kentucky Idyl By F. Waller Allen

A beautiful pastoral love story told with all the charm and exquisite style of Ik Marvel's "Reveries of a Bachelor," and George William Curtis's "Prue and I." A story so charmingly told that it will become enshrined in the memory. De Luxe Bookmaking. 8yo. Illustrated. \$1.25.

Sir Galahad of New France By William Henry Johnson

A novel having for its background the attempts of the French Huguenots to settle in Florida. The author, a historian, vividly portrays the contrast between troubled France and the Arcadian simplicity of the American primeval forest. Illustrated. \$1,50.

The Bishop's Niece By George H. Picard

A tale that reminds one of "L'Abbe Constantin," but with a Cape Breton setting. An unassuming bishop, a lovable priest, a family of Scotch Catholics, another of Methodists and Cupid. \$1.25.

Herbert B. Turner & Co., Boston

Literary Census and Consensus

Place a cross (X) after the Works you do not possess in good editions.

Place a double cross (XX) opposite the sets you desire to possess as found expedient

¶ Our co-operative publishing plans of the last nine months have developed some astonishing things in the way of beautiful editions at low prices, and thousands of pleased customers have participated in book bargains that are unprecedented in the publishing business.

It is all due to our methods, which have reduced the selling and distribution cost to less

than one-third the usual expense.

¶ The high prices charged by other houses for good library editions are largely due to expensive methods of sale.

Every cultured person under fifty years of age and every person interested in Library building should get in touch with us by sending in the coupon below.

¶ We shall then send you some exceedingly interesting literary data, and make you a proposition which you have not dreamed possible in connection with high-class expensive book-making.

We also wish to send you SERVISS' "NAPOLEON" with our compliments. This is the great lecture which is said to contain more brilliant description and more history than is to be found in similar compass anywhere else in the English Language.

¶ We are now extending our publishing policy—the building of home libraries—by making the greatest line of standard sets ever published in this country.

¶ We are anxious to get the advice of a large number of discriminating book-lovers. Please cut out the coupon below, fill in your name, and mail same promptly. You incur no obligation whatsoever.

FOUR MODERN CLASSICS

IN THE DAYS OF SCOTT (Just Issued)
IN THE DAYS OF CHAUCER
IN THE DAYS OF SHAKESPEARE
IN THE DAYS OF MILTON

By TUDOR JENKS

Each Illustrated, 12mo, cloth, \$1.00

Here is the way ancient England appeals to the popular mind. Tudor Jenks is the worldly wise scholar, a man of popular mould. To read after him is to walk the streets and mix with the living people of old England.

He has made the merry-hearted England of Chaucer's time live in our imagination. He creates again our Shakespeare for us—Will Shakespeare, the boy in Stratford, the young man who went to seek his fortune in London and later returned to the life of a country gentleman, a sportsman and a neighbor.

The England of John Milton is the England from which America drew its life. Milton is pictured as the affectionate friend, the blind seer, the lonely prophet of a new world.

This remarkable series is completed by a new volume—the Story of Sir Walter Scott, his comrades and his romances.

THE NEW KNOWLEDGE

THE CITIZEN

By NATHANIEL SOUTHGATE SHALER

Late Professor of Geology in Harvard University and Dean of the Lawrence Scientific School.

A STUDY OF THE INDIVIDUAL AND THE GOVERNMENT 12 mo, cloth, \$1.40 net, postpaid \$1.53

In this suggestive and most interesting book Professor Shaler describes the relation of citizens, men and women alike, to their systems of government. Each individual has a relation to city, state and national government and to questions of public policy, which is explained in the simple, lucid and eloquent style characteristic of the distinguished author. It is a popular exposition of questions of every day interest. The great experience of the author both in education and in affairs relating to public policy has been freely drawn upon. The Citizen is a book to be read by every intelligent American.

"The volume is a fascinating one; its author possesses the rare gift of lucid exposition and the still rarer gift of scientific imagination."—

A SAMPLE OPINION

Some weeks ago I saw the advertisement of your "Pocket Testament with Notes," and sent for one. I expected to receive a small book neatly but cheaply bound and containing a few notes, but what was my astonishment and delight to receive a beautifully bound, structurally perfect book, and with copious and complete notes and instructions. I am reading the book aloud to my family, and never has the Word of God been so full of meaning and enjoyable as it is now. All the doubtful passages have been made clear and the explanatory notes are reasonable and sensible besides being expressed in simple language. Much praise is due to the noble men who devoted so much time and labor to make this perfect New Testament. Very sincerely and respectfully,

The Christian Press says—"We know of no book which is more worthy of a popular reception than this beautiful Testament. It contains, ready to hand, much of the material needed in reading the Bible."

The Christian Observer says—"The notes in this edition are exceedingly clear and pointed. They go right to the root of the matter. They are brief and yet full of thought and information. There are introductions to the Epistles explaining their general scope."

STATEMENT REGARDING THE WORK OF THE INTER-NATIONAL COMMITTEE

I.—GENERAL ADMINISTRATION

- 1. Committee Membership.—During the year six new members have been added to the Committee in accordance with the authorization of the Buffalo Convention, as follows: James M. Speers of East Orange, New Jersey; Abner Kingman and W. M. Birks of Montreal, Quebec; Harvey Graham of New Glasgow, Nova Scotia; G. Tower Fergusson of Toronto, Ontario, and G. F. Stephens of Winnipeg, Manitoba. The Committee has lost one of its most valued and honored members in the death of Henry M. Moore of Boston, who had been connected with the Committee since 1876.
- 2. Committee and Sub-Committee Organization.—The sixteen sub-committees have continued their relation to the various departments of the Committee's work and have reported in detail to the regular monthly meetings of the Committee. A summary of these reports for each department follows in this statement. The addition of the Canadian members has made possible the complete organization of the Canadian Section referred to in the statement of a year ago. C. T. Williams, of Montreal, has been appointed chairman of this section and an office has been opened in Montreal which will be Canadian headquarters for the Committee and for its secretaries specially assigned to work in Canada.

3. The Executive Committee.—This Committee, composed of the chairman, the two vice-chairmen and the treasurer and having for its executive officers the general secretary and the two associate general secretaries, has, as heretofore, acted for the Committee in the interim of the monthly meetings and has maintained a close relation to every phase and department of work undertaken

in the name of the Committee.

Richard C. Morse has continued as general secretary with Clarence J. Hicks and John R. Mott as associates in the Home and Foreign work respectively. Mr. Hicks has continued to act as the senior railroad secretary and Mr. Mott as senior student secretary in addition to his official duties in connection with the World's Student Federation and the Student Volunteer Movement. Messrs. Hicks and Mott attended the plenary meeting of the World's Committee in Geneva, Switzerland, in March, 1906, and Mr. Mott's trip has extended to South Africa and South America where he is aiding the student and city association work.

4. The September Conference.—This annual conference of the Committee and its secretaries has proven indispensable in the promotion of unity and efficiency. The gathering for 1905 was held at Bronxville, New York, September 1-4, and was attended by nineteen members of the Committee and of its trustees, by all of the home secretaries, by four foreign secretaries home on furlough and by fourteen foreign secretaries recently appointed.

It was preceded by a special conference on the religious work in all departments and was followed by sub-committee meetings and departmental conferences.

- 5. The Anniversary Dinner.—The regular annual dinner meeting of the Committee and its contributors was held in New York, November 16, 1905. A large number of guests were present representing several points in the east as well as New York City.
- 6. Panama.—Following the investigation of conditions on the Isthmus alluded to in the statement of last year, a report was submitted to the United States Government authorities recommending the erection of several association buildings and the inauguration of a comprehensive plan of association work under direction of the International Committee. This report has been approved by the President and the Secretary of War and with their hearty support a secretary has recently been sent to the Isthmus to work out this plan. A. Bruce Minear, formerly one of the Bible study secretaries in the student department, has been assigned to this important and responsible position.
- 7. San Francisco.—As soon as word was received that the appalling disaster at San Francisco had destroyed the association building, the Committee realized that temporary help would be needed for the support of the association's secretaries and for the current expenses of such work as could be carried on in tents until the building could be replaced. An appeal was therefore promptly sent out to the associations and over ten thousand dollars has been contributed up to the present time, with pledges of additional help. By agreement between the San Francisco association, the California State Committee and the International Committee this amount has been distributed as follows: San Jose association, \$600, California State Committee, \$700, and the balance to the San Francisco association. The Committee is also aiding in an attempt to secure \$500,000 to rebuild the San Francisco building.
- 8. The Indianapolis Conferences.—Most of the home secretaries and a few of the foreign secretaries of the Committee attended the Conference of the North American Association of Employed Officers at Indianapolis, June 1-5, 1906. This gathering, with its related group of specialists' conferences, was one of great value. The Committee took advantage of the presence of so many secretaries to arrange for a joint conference between secretaries of the International, State and Provincial Committees. This was held during the afternoon and evening immediately following the adjournment of the other conferences and was presided over by Dr. Lucien C. Warner, chairman of the International Committee. Mr. Joy of Keokuk and Mr. Shuey of Dayton were also present as representatives of the International Committee and Messrs. Wallick and Rhodes of Indianapolis represented the Indiana State Committee.
 - 9. Silver Bay.—The International Committee has continued, in

connection with several eastern State Committees and with the Springfield Training School, to promote the Christian conferences and the summer training institute held at Silver Bay, Lake George. The hotel and other facilities were so overcrowded in 1905 that the corporation has secured \$40,000 for additional equipment and the outlook for 1906 indicates that it will still be difficult to care for all who are planning to come.

10. Next International Convention.—Invitations have been

10. Next International Convention.—Invitations have been received from every section of North America for the Thirty-sixth International Convention. After careful consideration Washington, D. C., has been selected, the date to be some time

in November, 1907.

- 11. Trustees and Invested Funds.—The regular annual meeting of the trustees was held April 20, 1906. J. Noble Stearns was elected President in place of James Stokes, whose term of office had expired and who declined renomination. The other officers were re-elected. The treasurer reported that the total amount of funds on hand including that portion of the Jubilee Fund already collected was \$711,492.83. Of this amount all but \$1,784.08 had been invested in interest bearing securities. The treasurer's statement in the Year Book shows the amount of income from the various funds received and turned over to the International Committee.
- 12. Women's Auxiliary.—As in past years the Women's Auxiliary has been exceedingly helpful in promoting the Committee's Work. The funds for two new buildings have been provided and special educational and religious efforts have been made possible through the assistance afforded by this organization, which now has a membership of 543, scattered through many states. The same officers continue to serve, Mrs. E. A. McAlpin being President; Mrs. Russell Sage, First Vice-President; Miss Helen Miller Gould, Second Vice-President; Mrs. Charles-F. Darlington, Secretary-Treasurer.

II.—HOME WORK

- 1. The Office and Publications.—This sub-committee has been supplemented, as heretofore, by the secretarial office committee, Messrs. Uhl, Hicks, Lougee and Glover, who have had charge of the large number of details constantly requiring immediate settlement in connection with the administration of an office. The sub-divisions of this work are:—
- (a) Office Work, which continues under the supervision of P. F. Jerome. This includes all ordering and distribution of supplies, employment and supervision of stenographers and clerks, charge of shipping and receiving, ordering of all printed matter except that in the publication department, and general charge of the office.
- (b) Publications. The Publication Department under the supervision of Geo. L. Leonard and H. S. Ninde has made substantial gain. To the existing list of publications have been added

the following new titles, 28 in number, in addition to new editions of previous issues:

Air Brake Questions.

Annual Religious Work Report.

Bible Study Examination Questions.

Biblical Facts and History.

Constitution and By-laws for Railroad Associations.

Constitution for a Y.M.C.A. in a Preparatory School. Detroit Railroad Conference Report.

Educational Examination Questions.

Enlisted Man and His Bible. Fifty Years of Federation.

George A. Hall Memorial.

Good News of Jesus Christ—Parts I and II. Gymnasium Nomenclature. (Revised.)

Industrial Young Men's Christian Association.

Information and Suggestions. (Educational Report.)

International Committee.

Introduction to Bible Study.

Life Problems.

Railroad Mathematics—Parts I and II.

Relation to the Churches.

Story of Jesus by John—Parts I and II.

Studies in Association Work.

Teaching of Bible Classes.

What Men Say.

Why Should a Railroad Man Study the Bible.

Year Book.

Of the Association Hymn Book 40,000 copies have been sold in the two years since publication. These are in use in City, Railroad, Student, County, Colored and Foreign Associations, in Young Women's Christian Associations, public and private schools and churches. A valuable book for the development of Bible class teachers in church and Association has been provided in Mr. See's normal course entitled "The Teaching of Bible Classes." "Individual Work for Individuals" was during the year adopted as a text book for classes in Epworth Leagues. Other denominational agencies are using this and other books and pamphlets issued by the International Committee. Prof. Bosworth's "Studies in the Life of Jesus Christ" issued in 1904 has proven a very popular and valuable course of study. "Studies for Personal Workers" by Dr. Johnston has been translated into Chinese and the "Life and Works of Jesus According to St. Mark" by W. D. Murray into both Chinese and Japanese. The use of the regular American editions of many of the Committee's books in other lands is gratifying. The receipts from sales in 1905 were \$63,540 compared with \$59,373 in 1904.

(c) Book-keeping. C. E. Lyman and G. C. Cameron continue in charge of this department and Mr. Lyman also acts as cashier for the Committee.

(d) Auditing. Attended to by E. M. Willis for the home work and H. P. Andersen for the foreign work, each of these secretaries devoting only a portion of his time to this particular work.

The Historical Library.—J. T. Bowne continues in charge of this valuable collection of books and pamphlets concerning young The library is at Springfield, Massachusetts, in connection with the Training School, and is constantly drawn upon and consulted by Association leaders from all parts of the world.

2. Business and Finance.—To the administration of this department the finance committee has given very careful attention. Its business secretary, Willis E. Lougee, and his associate, Thomas K. Cree, have received cooperation from the general secretary and other members of the force. The emphasis of their efficient work has been upon provision for the home department. John R. Mott and E. T. Colton and their associates in the foreign work have with equal success provided for the increased expenses of that department.

The cost of the home work in 1905 was \$166,841.09, and of the foreign \$151,691.29, being an unprecedented total of \$318,532.38.

Over 10 per cent of the home budget was contributed by associations and their employed officers, but from this source came also forty-eight per cent of the entire foreign budget. This proportion of twenty-eight per cent of the total of both budgets (\$318,532-38) is larger than has been furnished from this source in any pre-

vious vear.

Another encouraging feature of the financial exhibit of 1905 is revealed by the fact that during the year the number of receipts issued in acknowledgment to contributors was 8,329, being over five hundred more than were issued in the previous year. Similar annual increase has been steadily realized for over ten years—the number of receipts issued in 1894 being less than two thousand (1872). The number of receipts, however, is much smaller than the number of contributors. This is particularly true of the Foreign Department, where a single receipt sometimes covers the contributions of several score and in some instances several hundred contributors.

The current fiscal year, beginning January 1, 1906, has opened in the business department as happily as its predecessors.

3. Association Men.—Frank W. Ober, editor, B. P. Bartlett, business manager. This agency of the Committee has been one of the influential factors in reaching and stimulating the active forces of the association, thereby contributing to the remarkable general advancement during the past year. In daily communication with the association field in all lands, in conference with leaders who travel in every country, state and county, and in touch with each group of men who are seeking to help their fellows, it

Statement 16

has received and digested with great care the ideas and experiences To officers and committees it has the greatest value and has sounded a clear, strong note for the essential and vital things in the life of men. The leaders of each department have found through its columns a ready means of access to the active forces of the association movement. During the year Association Men has established a clearing house for reading room supplies, handling the first year the bulk of the orders of the associations for magazines and periodicals. The circulation of the paper has been stimulated by a premium offer embracing the New Testament and Psalms (Revised Version), with the special aim of reaching every Bible student and young worker in the association who is in training for service. The advertising columns have carried the highest grade of advertising and more of it than heretofore. The weekly "News Service" has been enlarged and improved and is widely used in the secular and religious press.

4. Groups of Associations. (a) The Field Department.—Field Secretaries C. K. Ober, C. L. Gates, C. S. Ward and W. M. Parsons have continued their work in the east, the south, the central west and the northwest. J. R. Thompson has been given a year's leave of absence on account of ill health. Bruno Hobbs, for several years chairman of the Colorado State Committee and previously of the Kansas State Committee, has been added to the force of field secretaries with special reference to the Southwest. All of these secretaries have been engaged in the building up of city associations, particularly in the inauguration and conduct of building enterprises and the securing of secretaries, and in strengthening the various State and Provincial organizations within their fields.

Early in the year, in response to calls for help in securing buildings in the west, Mr. Ward was released from his other work that he might devote his entire time to the organization and conduct of campaigns for buildings. Nine such campaigns have been conducted during the year and the aggregate amount secured has exceeded \$1,600,000.

The other field secretaries in addition to their other work have promoted building enterprises in which over \$600,000 have been pledged, making a total for new city association buildings of fully \$2,250,000 during the year.

Arthur T. Tibbetts (Te-sun-ka-ma-ni, or Walking Horse, as he is known among his own people) has continued his work among more than forty associations of Sioux Indian young men, promoting Bible study, conducting training conferences for leaders, conducting and promoting religious work and building up and organizing associations.

The County Work.—The senior secretary of the county work as well as of the International Committee, Robert Weidensall, was voted a leave of absence by the Committee, and with the help of generous friends is making a tour of the world. He has

already visited helpfully associations, and association workers in Hawaii and the Philippines, in Japan China, India, Syria, Greece and Constantinople. As the special representative of the International Committee and as its senior secretary, he has everywhere been cordially and gratefully welcomed. John R. Boardman has remained on the field as the secretary of this department. The year has demonstrated that county work has passed the experimental stage and reached a permanently established basis. This is shown by two results:

(1) The intrenchment of county work as a regular department of state work, as evidenced by the committees of Vermont, Massachusetts, Virginia, Ohio and Michigan, each employing county department secretaries with adequate financial provision, and New York state employing an additional county department

secretary.

(2) Careful study of this department by state and provincial committees with a view to its early inauguration as a fully organized department with a secretary giving his entire time to supervision. On this basis Tennessee, Indiana and Wisconsin State, and Ontario Provincial Committees have taken action. Kentucky is testing the adaptation of the metropolitan system to county work by organization with a well equipped building at the county seat.

The county work is now definitely included in the policy of eighteen states and provinces, ten of which employ state department secretaries. There are thirty-three organized counties in which there are 175 local organizations with an approximate

membership of 7000.

More attention has been given to the plan of corresponding members, by which young men leaving home for the first time are aided in making the safest possible entrance into their new

environment.

In a number of counties the athletic life of the entire county is being controlled by affiliation with the Athletic League in the interest of clean sport. Twenty camps in as many counties gathered 600 boys and young men under canvass last summer. A wider application of educational work has been realized and practically every phase is now in successful operation. A strong advance has been made in boys' work, one county alone having 350 in its membership, while several counties are planning for the employment of boys' work directors.

The most marked advance continues to be manifested in the religious work. Fully 2500 different students have been enrolled in Bible classes, the most advanced courses of study are being used and an increasing number of international certificates are being secured. The association at Tecumseh, Michigan, has won the Dan McDonald Bible study cup for the second time and is entitled to hold it for six months, January 1 to July 1, 1906.

A wave of strong aggressive personal evangelism, enlisting the

Statement 18

actual cooperation of scores of personal workers, has swept over a number of counties with a resulting healthy increase in church membership and a more vital personal religious life. Instances of the complete transformation of individual communities and churches have been of frequent occurrence and the gratitude of pastors is most hearty and generous. In its work of training leaders in the service of the Kingdom of God the county work is beginning to enter into its largest and most legitimate ministry.

An institute in county department principles and methods was conducted at Silver Bay, New York, in August, 1905, with twenty students enrolled. Its success led to the grading of the instruction into elementary and advanced classes and the appointment of a faculty of five instructors. The management at Lake Geneva has voted to conduct similar classes this season. This plan of furnishing technical instruction to prospective and employed secretaries has been greatly needed and will doubtless be made a permanent feature at both places.

(b) The Railroad Department.—Clarence J. Hicks, associate general secretary, has continued the general supervision of this department, and Messrs. Williams, McDill, Shipp and Knebel have continued work in their respective fields. One new secretary has been added to the force, J. M. Dudley, formerly state secretary of Maine, and assigned to Canada and northern New England, with headquarters at Montreal, taking a portion of the field formerly covered by Mr. Moore.

The railroad associations on the New York Central lines have formed a federation which includes thirty-seven railroad departments on the allied Vanderbilt lines. By direction of the railroad committee Mr. Moore will give nearly all his time to the strengthening and developing of these associations, acting as executive secretary of this federation. These changes have necessitated a light rearrangement of Mr. Hamilton's field.

E. M. Willis has continued to give part of his time to the New York office and has assisted in special matters in various parts of the field.

The religious life in this department has been strengthened very materially during the year and Mr. Knebel has given much

attention to associations in need of special help.

W. E. Fenno has continued to devote a large portion of his time to special religious work under general direction of this department, and in a large number of railroad associations interest in Bible study has been stimulated by the work of Robert Garry.

Special emphasis has been given to educational work, especially in the southwest and on the Buffalo, Rochester and Pittsburg Railroad. Richard C. Morse, Jr., has accepted the call of the Committee to the educational secretaryship of the Gould lines and begins his duties on July 15th.

In connection with the \$150,000 reported last year as a contribution for a memorial building at St. Louis in memory of her

father, Miss Helen Miller Gould has increased the amount to \$220,000, a site has been purchased near the Union Railroad Station, various railroads have pledged assistance toward operating expenses, and a fire-proof building is now in process of erection.

The Committee has had special charge of the erection of the \$26,000 building at Helper, Utah, one of the two buildings on the Denver & Rio Grande Railroad donated by General W. J. Palmer

and George Foster Peabody.

At the opening of the \$32,000 building at Collinwood, Ohio, on the Lake Shore and Michigan Southern Railway, W. C. Brown, vice-president of the New York Central lines, delivered the principal address. This has been printed in pamphlet form and is being circulated very largely among railroad officials.

The Twelfth International Railroad Conference was held in Detroit, Michigan, September 28th to October 1st and was attended by 1361 delegates. Friday, September 29th, was an eventful day. At noon 8,556 working men in 40 different factories listened to messages from the delegates. The speakers were accompanied by business men and manufacturers and received a most cordial and sympathetic hearing. Ten thousand copies of Association Men were distributed and invitations extended to the Sunday men's meetings. On Sunday afternoon a mass meeting for railroad men was held in the armory, at which time 112 men indicated a purpose to begin the Christian life. On Sunday evening there were 42 men's evangelistic meetings held in as many different churches, attended by 7,987 men, of whom 349 were led to begin the Christian life. The railroad department is under great obligation to the associations at Detroit which arranged for and carried out the local plans so acceptably.

A special feature of the past year has been the stereopticon presentation of railroad association development before clubs of railroad officers and employees at New York, Buffalo, Richmond, Chicago, Des Moines and San Francisco. Reports fully illustrated have been issued in the regular proceedings of these clubs. Through the courtesy of Grand Chief Engineer W. S. Stone, an evening session at the General Brotherhood of Locomotive Engineers' Convention at Memphis, Tennessee, was devoted to a similar presentation.

(c) The Industrial Department.—As the industrial work is more carefully studied, the obligation of the city associations to the employed men in their communities is being more fully recognized. During the past year attention has been given to adapting educational work to meet the needs of employed men. In order to promote the Shop Bible Class movement and to accomplish the educational, social and recreative work which is demanded, the city associations in the manufacturing centers must have industrial secretaries who will give their whole time to work outside the buildings. Special attention has been given to this problem in the last year.

A number of industrial associations have been added to the list; it has been impossible to respond to all the requests for investigations of industrial communities representing a wide range of industries from all over the country. Both employer and employee are united in this movement. C. C. Michener has con-

tinued as secretary in this department.

(d) The Student Department.—The executive administration of this department has continued to rest upon John R. Mott and H. P. Andersen, who have also served on the executive committee of the Student Volunteer Movement. The field visitation in the east has been carried on for the last year by Charles W. Gilkey, who has given attention both to colleges and universities and to leading preparatory schools. W. H. Tinker and Frank V. Slack have also visited colleges in the east. The south has been visited by W. D. Weatherford, the west by Charles D. Hurrey and the Pacific Coast by H. O. Hill until January 1st, when he became secretary of the Student Volunteer Movement. T. B. Penfield has visited theological seminaries.

Clayton S. Cooper has continued to promote Bible study through visits to colleges, attendance at conferences, and through work at the office. K. C. MacArthur has been associated with him for field work, while A. Bruce Minear has aided in the office since January 1. The death of Lester McLean, Jr., who served the department last year, was a deep loss to the whole association brotherhood. Special attention has been given to increasing the efficiency of the Bible classes through normal classes, Bible institutes, and summer conferences. The enrolment is 29,334

in 516 institutions.

Strong evangelistic work has been done, particularly in the south and the middle west. In this the student secretaries have taken

an important share.

It has been preminently a missionary year. The convention of the Student Volunteer Movement was held in Nashville, Tenn., with an attendance of 4,235 delegates. The enrolment in mission study has increased steadily, while 214 have sailed for the foreign field, making the total number who have become foreign missionaries 2953.

Increasing attention has been paid to the problems of the home field. The claims of the ministry have been presented with greater frequency and force. The study of home missions is being promoted.

A \$106,000 building for McGill University and one costing about \$80,000 for the University of Virginia have been dedicated without debt. Promising building campaigns are in active operation

at several universities in the west and south.

The conference of the World's Student Christian Federation met in Zeist, Holland, May 3-7, and was attended by 145 delegates from thirty countries. It marked the tenth year since the formation of the Federation, in which there are 1,825 societies with 103,000 members.

(e) The Army and Navy Department.—William B. Millar, John S. Tichenor and F. A. McCarl have continued to devote their full

time as secretaries of this department.

Following the World's convention at Paris, Mr. Millar visited several of the European counties, and at the request of an American friend of these countries, presented the opportunities for the association movement in their armies and navies.

Mr. Tichenor, owing to special need this year, has given a larger portion of his time to the army than to the navy, with particular reference to extension and post exchange work. He visited San Francisco as the representative of the Committee immediately after the earthquake. Mr. McCarl has spent a large part of the year on the Pacific Coast in the interest of army and navy affairs with special attention to cooperation for releasing the Vallejo building from debt. The fire and earthquake have necessarily retarded this latter movement.

The army work has grown in strength and extent. Money has been secured for a forty-five thousand dollar army building at Fort Leavenworth, Kansas. A favorable site has been designated by the authorities and bids are now being received for the erection

of this building during the coming year.

The policy of restricting the organization of army associations to points where there are resources available for the support of a paid secretary has resulted in materially raising the standard both as to character of the work accomplished and secretaries engaged.

The post exchange work has been continued and considerably extended, especially good quarters being assigned in the post exchange buildings at Fort Totten, L. I.; Fort McKinley, Me.; Fort Brady, Michigan; and Fort Myer, Va., and per mission has also been secured to enterseveral others, notably among them Fort Logan, Colo., for which a secretary has been engaged to begin work in the fall.

The army work in Alaska has been placed upon a permanent basis with headquarters at Fort William H. Seward, at Haines, where the association is already organized. During the summer months visits will be made to the various posts and telegraphic stations along the Yukon river by means of a thirty-foot naphtha launch. The social side of the association movement, always popular with the soldiers, has been especially appreciated in the isolation of the Alaska posts, and has offset to a large degree the influence of evil places which formerly prevailed.

Two of the secretaries of this department cooperated with the San Francisco association in a special tent work for soldiers immeiately following the disaster there. Cordial endorsement and

appreciation of this work was expressed by the officers.

Arrangements have already been made for opening association work in part of the joint encampments for militia and regulars

which are to be held during the summer.

The association among the legation guards at Peking, China, has been continued and is proving a boon to the soldiers from many nations gathered at that point.

The reorganization of the work in the Phillipine Islands has resulted in a rapid growth and a strengthening of the association A large amount of service to the civilian young men has been included at Manila, and army work being more and more centered in Fort William McKinley, near that city. A large memorial building at this fort has been turned over for association headquarters and is now being furnished by funds raised in this country. The post alone has over four thousand men and this number is soon to be increased.

Special work for scouts and constabulary was continued with success up to the time when military reorganization dispersed the troops in small assignments and this made it wise to withdraw

from that particular branch of the service.

The Naval Young Men's Christian Association, with seven branches in operation, has had the most successful year in its history. While the enlisted force is larger than ever before, the percentage of the total number of the men reached is also greater. as indicated by the number of visits to the various buildings and

the overcrowding of many of the branches.

The needs of the Norfolk branch and the splendid record in rented quarters have been influential in securing a large gift from Mr. John D. Rockefeller, making possible a modern fully equipped building to cost about \$300,000 at that point. A canvass is being conducted at Newport, R. I., which it is hoped will warrant a building also for that branch. The Brooklyn branch has so increased its work that an adjoining building has been purchased and fitted up and is already in successful operation. mittee has authorized the opening of a new Naval branch at Philadelphia, Pa. A house has been rented and the branch formally opened on the 1st of July. The naval branches at Cavite and Olongopo have continued and the demands at these points have warranted the authorization of the raising of a fund for a naval branch building.

The visits of the fleet to Chefoo, China, have resulted in a strong pressure being brought to bear upon the Committee for temporary work at that point and a secretary is now in the field for that

purpose.

The religious work among the sailors has continued to develop in a marked degree and three secretaries are giving full time to it. The Soldiers' Bible and Prayer League and Army Temperance

Union are important factors in the department.

A second edition of "Songs for Army and Navy" has been issued and the sales are such that a third edition is necessary. Department at Washington after a careful examination has given orders that 100 copies should be furnished for each war-vessel hereafter commissioned and to include thirteen war-ships already specifically named.

(f) The Colored Men's Department.—Three secretaries of the Committee have been engaged in the supervision of association work among the 2,000,000 colored young men in North America.

W. A. Hunton, besides attending to the general interests of the department, assisted in the visitation of both city and student associations. J. E. Moorland devoted all of his time to city associations, while Geo. E. Haynes had his first year of work in the schools. There are now 117 associations among colored men—36 in cities and 81 in educational institutions. Of these 13 have been added during the past year.

In the city section, effort has been made to strengthen and develop existing associations rather than to organize in new fields. Progress in the religious and educational features was especially marked. Of sixteen buildings owned, with an aggregate value of \$150,000, three were purchased last year. Twenty colored sec-

retaries are employed for their entire time.

The student associations of this department are scattered over twenty states, making close supervision impossible by so small a force. For the first time, the associations in all but two states were visited, and Secretary Haynes made second and third visits

to many schools in his territory.

The annual conference at Greensboro, N. C., was one of the largest and best ever held by colored association workers. Delegates attended from sixteen states. Seven Bible institutes were also held at educational centers, which resulted in greatly increasing the enrolment in Bible classes and the effectiveness of the associations.

5. Internal Development Departments. (a) The Religious Work Department: Field Division.—Fred B. Smith, secretary of this division, has continued active work in visitation of local associations and attendance at state and provincial conventions and conferences and has addressed the Training Schools at Springfield and Chicago. These main features have been emphasized:

(1) To meet the lay workers and present the best known methods of conducting evangelistic meetings and Bible classes in the association buildings and outside in the shops, etc. In these sessions, 7,685 committeemen have been present and participated.

(2) To increase the efficiency of evangelistic effort by correspondence and conferences, so far as possible, with the 186 cities doing the largest work of this type and to personally conduct such campaigns. Mr. Smith addressed 76 such services at which 88,400 men were in attendance. The visible results were the largest of any year of this feature, 4,327 men professed to enter the Christian faith and life in these meetings. Pastors in cities where the meetings were held report from one to twenty-four young men uniting with the church at one time.

(3) To increase the effectiveness of supervision in the religious work department, nine state committee meetings were visited and plans inaugurated or assisted for closer direction of the defi-

nite religious work.

Increased attention has been given to helping state and local committees in securing competent directors for religious work. Not a small amount of time has been given to investigating meth-

ods employed in the most successful associations in securing

large spiritual results.

A. J. Elliott, the religious work director of the central department, Brooklyn, gave some time to the Committee and rendered valuable service in Kentucky, Ohio and Michigan. R. Alfred Waite, Jr., formerly the general secretary of the Christian associations of Syracuse University, accepted the position of associate secretary of this division and began his duties June 1st.

The Religious Work Department: Bible Study Division.—During the year ending April 30, F. S. Goodman as secretary of this division visited 53 associations in 17 states and conducted 36 conferences and institutes. These gatherings have been devoted to the cultivation of higher ideals of work, especially in Bible classes and in suggesting methods of work. Conventions were attended in 7 states. Personal evangelism has been given special emphasis. He participated in the Summer Schools at Lake Geneva and Lake George.

This division has continued its efforts in behalf of more and better Bible courses and the literature of principles and methods of practical Christian effort. During the year three new Bible courses have been added and others arranged for. The first course in correspondence Bible study, and a pamphlet, "Why Should a

Railroad Man Study the Bible," have been published.

The study of various types of religious work among young men has been continued, especially men's organizations in local churches. The association movement is contributing both indirectly and directly to the development of such organizations. Statistics reveal a gratifying growth. Bible classes in the city, town and railroad associations have grown from 2,657, enrolling 47,417 students in 1905 to 2,753 with 48,094 students in 1906; the number passing the international examinations from 746 to 1,135. The Extension types of classes and meetings in shops, street car barns, homes and boarding houses are increasing, and evangelistic meetings are becoming more definite and practical. The attendance at all religious meetings increased from 4,066,200 in 1905 to 4,370,676 in 1906. The annual report of religious work, published in October, classifies, enlarges upon, and interprets the statistics of this work as presented in the tables of the Year Book.

(b) The Educational Department.—The educational work continues on the same general lines as in the past, with secretaries George B. Hodge and George A. Gregg in this department. The time of Mr. Hodge has been given quite largely on the field conducting institutes and conferences. Mr. Gregg has spent the majority of his time visiting and aiding local associations, giving considerable special attention to the railroad associations. There is a larger desire for supervision, both state and local, which is encouraging. In Massachusetts and Rhode Island the work of A. G. Bookwalter as state educational secretary has been found so helpful that a second man, A. D. Dean, has been secured for full time in the same service, but giving special attention to promoting industrial edu-

cation. The work in Ohio is progressing rapidly under the state supervision of G. B. Landis. New York voted at its last convention to employ a similar state educational secretary. A large development is seen in the number and nature of special schools with high tuition fees, ranging from \$25 to \$100 for a course.

The international examinations, both in educational and Bible study, were conducted as usual by this department. One hundred and seventy-five associations took part, 2,384 certificates and pass cards were granted, of which 1,135 were in Bible study.

Larger interest is found among employed boys. The "McBurney memorial cup" led to a larger participation of boys in the

educational examinations than ever.

A more complete report of this department is found in "In-

formation and Suggestions" for 1906.

(c) The Physical Department.—Under the leadership of George J. Fisher, M. D., special attention has been given to the training of men for the physical directorship by addresses given at both training schools, courses in physical work arranged for the summer schools at Lake George and Lake Couchiching, and a course of ten lectures delivered at Lake Geneva. Personal conferences were also held with individuals and addresses made to leaders' corps.

Extensive visitation through the west, northwest and Pacific Coast, two tours of Canada and visitation of the south were made for a study of the field and to bring to local and state associations the best methods and highest ideals in physical education.

Cooperation has been given local associations in the education of the membership, by addresses to gymnasium members, conferences with committees and boards of directors, and seeking to coordinate the association with other organizations in the city conducting similar work and presenting plans to the association for the promotion of extension work—work outside the building.

Addresses have been made to other organizations, seeking to inform them upon the nature of the physical work and its relation to their work, such as the Canadian Club of Toronto; the clergy; school boards; city legislative bodies; school teachers and church

clubs.

Advances have been made in raising the standard of physical work and unification in technical matters by the publication of *Physical Training*, by addresses at State Conventions, and by numerous State Conferences of physical directors and employed officers.

The Athletic League has been made increasingly effective in the administration of competitive athletics through new legislation whereby the appointment is made of athletic consuls to whom is given the privilege of issuing sanctions and registration of athletes. Closer supervision is secured in this manner.

Progress has been made in defining the relation of the physical department of the association to related movements, such as the National Association for the Prevention of Tuberculosis, the Society of Sanitary and Moral Prophylaxis, public playground

movements and civic associations, This department has outlined a plan of physical work for the county department and is working

on another plan for the army department.

Attention has been given to the publication of pamphlets, books and articles on physical work helpful to physical directors—for example, gymnasium record book and articles for use in extension work.

The secretary of this department is also president of the Physical

Director's Society.

(d) The Boys' Department.—The character of the boys' department is more closely related to the quantity and quality of the supervision than to any other factor. It is therefore significant to note that during the past year the New York State Committee has added a man to its force to give his entire time to the supervision of this work, where before but a portion of a man's time was given. The Pennsylvania State Committee has added a state boys' secretary to its force; the Ohio and Wisconsin Committees have each voted to add a man to their forces for this purpose, and three other state committees have either engaged or called men to give a large proportion of their time to the supervision of the boys' work in their respective states. A more mature and able class of men are each year drawn to the boys' secretaryship.

One indication of the estimate placed upon this phase of work by the association generally, is indicated by the increasing amount of space which is being devoted in new buildings, and the additions or separate buildings which are being provided in other places.

Each year more responsibility is being laid upon the boys themselves locally, and through an increasing number of state conferences in the fall and winter months and general conferences in the summer months. More than thirty states and provinces were represented at the eastern and western boys' conferences held last year at Lake Geneva, Wisconsin, and Lake George, New York. A general Canadian boys' conference is to be opened this summer

at Lake Couchiching, Ontario.

Although the Sunday afternoon meetings for boys are growing in numbers and efficiency, some single meetings being attended by as many as two thousand boys, the emphasis of effort is upon the group Bible classes, rthaer than mass meetings. An increasing number of devoted older Christian boys are trained as teachers of classes, with results that have demonstrated the advisability of the plan. The idea of extending the benefits of the work beyond the membership is gripping the most progressive departments, and shop meetings for boys in mills, foundries, factories, shipyards, etc. are being conducted. Sunday-school athletic leagues, base ball, basket ball and other leagues are organized in public schools, and for entire communities. An increasing amount of cooperation has been evidenced with church boys' clubs, street boys' clubs, and other commendable enterprises.

Boys' camps are multiplying rapidly in number, and developing in efficiency. Including camps which have not reported, there

will be without doubt ten thousand boys and their leaders in camp in approximately three hundred association camps during the summer of 1906. A new feature which is just in its infancy is the winter camp. The permanency of the camp idea is evidenced by the accumulation of property; some camps owning land and equipment worth upwards of ten thousand dollars. The well conducted camp produces larger results for the effort and money ex-

pended than any other single form of boys' work.

A single secretary, E. M. Robinson, has continued to give what general supervision was possible to the more than five hundred boys' departments now organized, and has visited as many local fields as possible where special help was peculiarly needed. Even if his entire time was given to local visiting, it would not be possible to make a respectable visit to each of the existing boys' departments once in five years. Additional men should be added to this department, not only for general supervision, but for the development of specific departments. There is need at the present time for a man to give his entire time to the religious work for boys, a demand for another to develop the educational work, especially among working boys. Attention should be given to developing boys' departments in communities where no senior association exists, but where boys' work is feasible and badly needed. The recent developments in the high schools of the country demand that a man be set aside to grapple with that problem, and the developing of a scheme of work whereby the employed boys of the large cities, who are not now in association membership, can be reached, is worthy of the entire time of the best man who can be released for that purpose. A liberal endowment for this department is urgently needed to provide for some of these positions.

(e) The Secretarial Department.—Rapid increase in the number of association buildings of modern type, and continued growth in all departments of association work, are causing a demand for a higher grade of paid officers. In addition to many unrecorded inquiries for men during the past year, the secretaries of the International Committee have received 441 applications from associations for men, and in their search for suitable ones for these positions have corresponded with or interviewed 573 men, only 325 of whom proved to be acceptable for the places for which they were suggested or for other places for which they made direct application. Of 217 positions filled by men suggested by secretaries of the Committee, 97 were for general secretaries, 43 physical directors, 65 assistant secretaries or departmental directors, and 12 were in state or county work. Eight were in Canada, 24 in New England, 56 in New York, New Jersey and Pennsylvania, 81 in states west of these, and 48 in the south. John Glover, who for 18 years has conducted the correspondence of the secretarial department, continues to give the greater part of his time to this work, including the record of paid officers in which, beginning with the entry of each man into association service, his personal history, changes of location and reasons for resignation are noted.

During the past year 563 men entered, 436 changed locations, and 411 left the work.

III.—FOREIGN WORK

The past year has marked a greater advance in the foreign work than any that has preceded it. William M. Birks has been added to the foreign committee to represent the Canadian associations, making the total membership ten. H. P. Andersen and E. T. Colton are associated with Mr. Mott in the secretarial administration of this department, the former with special reference to the work on the foreign field and the latter with reference to the work at home. W. E. Holdren has become office secretary.

During the year eighteen men have been added to the staff of secretaries on the foreign field—one in Japan, one in Korea, nine in China, two in India, one in Ceylon, one in Cuba and three in Mexico. There are now sixty-one secretaries in ten countries, namely, Japan, Korea, China, Hongkong, India, Ceylon, Brazil, Argentine, Cuba and Mexico. In addition a special visitor has

rendered service in the Levant.

Notable advance has been made in both the city and student work. Marked progress has been recorded in educational work in Seoul, Tientsin, Shanghai, Buenos Aires and Mexico. The Bible study in all the fields has increased in effectiveness. This has been promoted by having Bible study secretaries in connection with the National Committees of Japan, China and India for the promotion of such study. Men have been led to enter the Christian life in all the fields. The revival in the colleges of Foochow in which over seventy were led into the Christian life is noteworthy. The associations have shown a deeper and more extensive missionary interest.

More strong native secretaries both for local and national work have been secured during the past year than ever before. Some men of unusual strength have given up opportunities for much greater salaries to enter the secretaryship. It is the policy of the department to have these secretaries supported by the associa-

tions employing them.

Six new posts have been occupied—Nagasaki, Japan; the American branch, Manila; Chentu, China; the Eurasian branch,

Calcutta: the Mexico City Branch and Monterey, Mexico.

The fine building for the Nagasaki association has been finished without debt. The \$50,000 building for the Shanghai Chinese branch is being erected. A magnificent lot for the Seoul association has been purchased and a fund for the erection of a building for Queen's College has been subscribed. The debt of \$32,000 gold, on the Rio association building, has been paid, \$10,000 of the amount coming from a Brazilian friend of the association, the largest single gift to Protestant missions made by a resident in South America.

The most significant acheivement of the year has been the

efficient campaign waged by the Japanese associations on behalf of the soldiers in Japan. Thirty secretaries, cheifly Japanese, although there were always one or more foreign secretaries at the front with them, have reached with some form of Christian service nearly a million men. This has broken down prejudice against Christianity and has been the means of leading a number into the Christian life.

The famine in Northern Japan has given the associations another opportunity to serve people in need and through a brotherly ministry to the bodies the associations have been able to win their confidence and gratitude. The teachers of English from the American colleges employed by the Government of Japan on nomination by the association national committee have continued to exert a remarkable influence. During the year fifteen teachers have reported forty-nine Bible classes with an enrolment of 768, while there were 103 inquirers and thirty-six students receiving baptism.

The Japanese associations have sent two of the most eminent Christian educators of Japan to the leading cities and universities of India to lecture on the influence of Christianity on Japan's

recent remarkable success and progress.

The associations of various lands have won the approval and support of government officials, and other influential men. The army work in Manchuria has had the endorsement and liberal financial support of the highest military authorities; the Korean government, with the approval of the Japanese financial adviser, has granted an annual subscription to the Seoul association, to which Hon. Edwin V. Morgan contributed \$2,500 and Col. Hyun Hun Taik, a Korean nobleman, contributed \$2,400 for the building lot.

The Chinese associations have seized the opportunity created by the presence of 9,000 Chinese students in Tokyo by sending secretaries there to establish a special work for them. The missionary bodies of China are cooperating in this significant movement.

The home associations and their friends have increased generously their interest in and support of the foreign work. This has been stimulated by the presence on furlough of Messrs. Brockman, Gailey, Fisher, Helm, Barber, and Southam. Foreign Mail has been made a bi-monthly illustrated publication and is a valuable means of cultivating intelligent interest in the foreign work. An attractive pamphlet literature is being created. Sets of lantern slides for illustrated lectures have been prepared for the use of local associations. But the chief agency in creating and maintaining the financial support of this work is the loyal interest of the members and secretaries of the associations.

THE INSTITUTE AND TRAINING SCHOOL

OF

Young Men's Christian Associations.

LOCATION

The work of the fall, winter and spring terms of the Institute and Training School is done in Chicago. Its class rooms, offices, laboratory, library, etc., are located on the 8th floor of the Association Building, No. 153 La Salle St. The work of the summer term is done at its Lake Geneva camp grounds, Lake Geneva, Wis.

PURPOSE

The School exists for the professional training of employed officers of the Young Men's Christian Associations.

REQUIREMENTS FOR ADMISSION

Applicants for admission to the School must be men, 18 years of age or over, who are members of an evangelical church. It is required that they give evidence of having the qualifications necessary for success as such employed officers. It is desirable that they have some experience as Association employed officers. Candidates for School's diploma must, as a condition of entrance, have completed a high school course of study. A limited number of men giving special promise of success will be admitted as special students; and may, if they so desire, do the additional work necessary to qualify themselves to graduate.

COURSES OF STUDY

The courses of study for general secretaries and for physical, educational religious and boys' work directors are two years; advance standing given to college graduates, enabling them in most instances to complete the secretarial course in one year. The courses of study include: (1) The English Bible; (2) The History, Philosophy and Activities of the Young Men's Christian Association; (3) Certain selected general subjects important in the equipment of an Association employed officer; (4) The theory and practice of gymnastics, athletics and aquatics; (5) Visitation and practice work in the different departments of the Chicago and neighboring Associations.

FACULTY

The faculty includes, first: Employed officers giving their entire time to the interests of the School. Second: Officers of the Chicago Young Men's Christian Association giving by special arrangement certain hours per week to instruction in the Training School. Third: Educators connected with the universities and professional schools of Chicago, who, by special arrangement, give instruction to the Institute and Training School. Each instructor is a specialist in his department. The total number of men regularly engaged in the work of instruction in the School, aside from its summer term, is seventeen.

STUDENTS

One hundred and fifty-five men coming from thirty-two states, territories, provinces nd foreign countries were enrolled as students during the year ending May 31st, 190 6.

The above organization was chartered by the New York legislature to hold perpetually the property located at Silver Bay on Lake George for the use of Christian Conferences. The majority of the men who are trustees of this property are connected with the Young Men's Christian Association and various missionary boards through the Young People's Missionary Movement. The corporation administering the property has nothing to do with the conference programs conducted by the various organizations. It manages the property in the interests of these Christian Societies, thus relieving them from the financial obligation and responsibility—necessary to the management of so large an enterprise.

The membership of the Lake George Committee is composed of representatives of the International Committee, of the State Committees of the East, of the Provincial Secretaries of Canada and of the Springfield Training School. Each of the organizations above mentioned elects its own representatives for membership on this committee.

The Lake George Committee at present conducts the following

work during the Summer:

INSTITUTE FOR SECRETARIES AND PHYSICAL DIRECTORS

This Institute is conducted for one month with courses of study for General Secretaries and Physical Directors. Special courses have been arranged for Educational Directors, Railroad Secretaries, Army & Navy Secretaries and County Secretaries.

Boys' Conference

This Committee conducts also a conference for older boys and an institute for workers with boys; this is the largest and most representative gathering of boys' leaders held in North America.

INSTITUTE PROGRAM

During August and the early part of September Bible Study Camp Fire Talks on Association methods, Nature Study, etc., are part of the daily program. While men attend these features during their vacation time, the inspiration and help combined with a most remarkable opportunity for outdoor recreation makes Silver Bay one of the most attractive places to be found.

Address all Communications to D. E. Yarnell, Twenty-third Street Branch, Young Men's Christian Associations, New York.

THE ASSOCIATION HEALTH FARM.

Organized May, 1903.

Farm Address: R. F. D. Box 30, Edgewater, Colo. Office Address: 1119 Ogden Street, Denver, Colo.

A special branch of the Young Men's Christian Association, organized to provide Open-Air Life for health seekers under Christian auspices and sanitary environment.

TRUSTEES OF THE PROPERTY:

The Board of Directors of the City of Denver Young Men's Christian Association: incorporated 1877; reincorporated 1906.

THE BOARD OF REFERENCE.

Consists of representative men who have visited the Association Health Farm during the past three years. List furnished on application to the secretary.

OBJECTS.

The two-fold object of the Association Health Farm is (1) to offer "open-air treatment" to consumptive young men sent to Colorado by their home physicians, and unable to afford the privileges of a regular sanitarium; and (2) to provide the most needy of these with employment capable of helping them financially during their stay, and at the same time suited to their physical condition.

NEEDS.

Investment of money in the Association Health Farm has been made by people who know of the good work already done. Additional funds are needed for permanent equipment. All checks for the equipment fund should be made payable to order of Charles D. Cobb, Treasurer, and mailed to W. M. Danner, General Secretary, 1119 Ogden street, Denver, Colorado. Prompt acknowledgment of all gifts will be made.

To Prospective Residents.

Before deciding to seek admission to the Association Health Farm be sure to send for circulars giving special instructions—application blanks—rates for accommodations, etc. For this information address H. D. Stueven, Resident Secretary, R. F. D., Box 30, Edgewater, Colo.

BENN PITMAN PHONOGRAPHY

The Best System. Approved by over half a century of far more extensive use than any other form of shorthand. Eight out of every ten American shorthand writers to-day write the Benn Pitman type of Pitmanic Phonography—the type characterized by the e-a-ah vowel-scale and by the small l-hooks on curves.

The Best Texts. Though the system is old the text-books are new, leading the van in shorthand pedagogy. The *Phonographic Amanuensis*, now in its second year of use, has made a new standard of excellence in shorthand text-books.

The Best Teachers. By a thorough plan of examination and certification The Phonographic Institute is able to select teachers of the highest grade. It has on hand at all times a list of eligibles. The services of this Bureau are given without charge to schools and teachers.

The Best Schools teach the Benn Pitman system—schools of establisht reputation, schools which use sound and tested methods, schools which employ strong, amply-paid teachers. Such schools have no need to catch like drowning men at every new straw system of shorthand put into print.

NEW GIFT BOOKS

SWEETER STILL THAN THIS

By Adah Louise Sutton
Author of "Seeds of April's Sowing," Etc.
Illustrated by CARLL B. WILLIAMS and
decorated by IDA MAY ROCKWELL.

One of the prettiest of the new gift books. Not only is the work beautiful, but the pictures are new in their conception. The book is a poem, the pictures are poems, and the decorations are poems of art.

"A gift book, highly artistic and as dainty as one could wish. It is made up of charming love poems, full of sympathy and tender sentiment."—Boston Herald.

OLE ANN

By Jeannette Grace Watson
Author of "A Chronicle of Christmas," Etc.
Illustrated by BERTHA ROCKWELL

"A number of delightful stories and sketches, in which the most engaging negro types figure largely, and the breath of the South blows sweetly."—Baltimore Herald.

A book brimful of clever character sketching, often times comical, quite often pathetic. Perhaps the best of them all is Ole Ann herself, who was wont to say after the death of her husband: "It do jess beat all how a pusson kin miss such a no-count niggah." Ten graphic vignettes of darky life, without the profuse dialect which makes so many negro stories unreadable.

The Gymnastic Apparatus for you —if you want the best

OMPARATIVE examination and tests clearly demonstrate the superiority of the new Spalding gymnasium equipment.

Designed on scientific, strong and graceful lines, made of perfect material by the most expert artisans, and sold with the Spalding Guarantee of "Perfect Satisfaction to the Purchaser," this apparatus justifies the highest praise.

A Model Gymnasium

THE Spalding Gymnasium at the World's Fair, St. Louis, was conceded by the most eminent physical directors of the country to be a marvelous exhibit of gymnastic apparatus and progression in the manufacture of same, many of the pieces being entirely new and of novel construction, made especially with a view to economy of space, now so necessary owing to the advanced value of properties where many of them must necessarily be located.

The hundreds of gymnasts who competed in the different events in the Stadium during the year proclaimed the Spalding apparatus the best that they had ever worked on, and the team of German Turners that came to America especially to compete in the International Championships at St. Louis on July 1 and 2, 1904, requested that they be permitted to use the apparatus of the Spalding gymnasium exhibit in the gymnastic tournament, and at the conclusion of the twoday meeting voluntarily forwarded to A. G. Spalding & Bros. a testimonial highly complimenting the firm on the manufacture of their gymnastic apparatus.

The same request was made by the Young Men's Christian Association of America, and the apparatus was used by them for the Championships with best results.

In the International A. A. U. Championships Spalding apparatus was likewise used, and the chairman of the committee declared the apparatus to be the best ever used in connection with a championship meeting.

In Competition with the World

SPALDING apparatus won the Grand Prize at the Paris World's Fair in 1900. Again at the St. Louis World's Fair in 1904 we captured the Grand Prize, and also a special Gold Medal, an award superior to the grand prize, for the most perfect of Gymnastic and Athletic goods.

Outdoor Gymnasiums

W E make the best and most complete line of this apparatus, also, as can easily be demonstrated.

Our Playgrounds and Gymnasiums will be found in almost all large cities conducting recreation centres, and we ask that you give them a careful examination if interested in Outdoor Gymnastics. New York City has a great many Spalding equipments.

The Model Playground we erected in St. Louis during the World's Fair was used daily during the season by hundreds of children. The test was severe but not one piece of apparatus was broken or even displaced.

Catalogs

WE have issued new and complete catalogs for Gymnastic apparatus, Outdoor equipments, and Athletic goods. Sent on request.

ARE YOU A BIBLE READER?

"The most helpful and valuable aid to the reading and understanding of the Word produced in a generation."

THE CHRISTIAN LIFE BIBLE

The five great themes, SIN, CHRIST, FAITH, LOVE and SAL-VATION may be said to form the heart of all Bible truth. The choicest passages referring to these subjects have been brought together from all parts of the Bible, each subject in its own color.

The Bible's Best Thoughts in the very words of Scripture are placed at a glance before the reader.

The great simplicity of this work is such that it requires no key or intricate system of reference and is readily understood at once by all. The saving of time, heretofore necessary in searching out the Concordance references to these subjects, will be clearly apparent.

NEW NOVELS WORTH READING

No. 101

By WYMOND CAREY, author of "Mon-sieur Martin," etc.

Illustrated by Walter Paget. Crown 820,

A stirring story of adventure during the war of the Austrian Succession. No. 101 was the cipher used as a signature by a daring spy, through whose agency the English were supplied with exact and unerring knowledge concerning the French plans. "Full of action, mystery, love, and the glitter of a fascinating court."—Chicago

Peter and Alexis

The Romance of Peter the Great By DMITRI MEREJKOWSKI, author of "The Death of the Gods," "Romance of

the Leonardo da Vinci," etc.

Crown 8vo, \$1.50. This is the concluding novel in Merej-kowski's Trilogy. It is a picture, vivid and true, of classes and conditions, of court and society, of peasant and wild religious beliefs in Russia at the beginning of the eighteenth

"Overpowering in its realism."-Wash-

ington Star.
"A story of very great power."—Brook-

Second Impression The Sacred Cup

By VINCENT BROWN, author of "A Magdalen's Husband," etc.

Magdalen's Husband," etc.

Crown 8vo, 81.50.

The Sacred Cup sets forth the position of a mature woman, refined, strong, and good, confronted with the fact that the man to whom she is engaged has been guilty of a shameful sin. The story is told with delicacy and reserve, and the characters of the men are particularly real.

"One of the strongest tales of the year—a story of real depth."—Grand Rapids Herald.

A Son of the People

By BARONESS ORCZY, author of "The Scarlet Pimpernel."

Crown 8vo, \$1.50.

A romance of the Hungarian plains-the hero, a handsome young peasant, who, having inherited a fortune from his thrifty father, is enabled to save a Hungarian nobleman from losing all his lands, and in return receives the hand of the lord's daughter, whom he has long worshiped from afar. Like *The Scarlet Pimpernel* the present story is of intense dramatic interest and shows great emotional strength.

All That Was Possible

By HOWARD OVERING STURGIS. author of "Belchamber," etc.

Crown 8vo, with colored frontispiece by F. S. Coburn, \$1.50.

Mr. Sturgis has written another striking novel. It treats with delicacy and reserve a situation hard to handle without some dispersion of merely conventional production.

regard of merely conventional proprieties.
"Interesting and artistic. Could not be praised too highly."—New York Tribune.
"Very bright. One of the cleverest surprises to be found in fiction."—N. Y. Globe. Second Impression

Saints in Society

By MARGARET BAILLIE-SAUNDERS

Crown 820, \$1.50 This story won the prize offered by Mr. T. Fisher Unwin for the best novel by an author who had never before had a work of fiction published. It is a story of the effect upon a young printer and upon his wife of readden reasoning the worlds title and coin! sudden accession to wealth, title, and social success. In their changed circumstances each meets a "kindred sonl," and the perilous relations of the four characters result in an absorbing entanglement of plot.

A Lost Cause

By GUY THORNE, author of "When It Was Dark," etc.

Crown 8vo, \$1.50.

Mr. Thorne, the author of that remarkable religious novel, When It Was Dark, which has become the theme of hundreds of which has become the theme of hundreds or sermons and has received the highest com-mendation in the secular press as well as in the religious publications, has written an-other powerful novel, dealing with present-day aspects of the Christian religion. The new story is marked by the same dramatic and emotional strength which characterized the explicit work. the earlier work.

"A curious story, skillful and interesting."—New York Sun.
"A very strong and vital book."—New York American.

The Shock of Battle

By PATRICK VAUX, author of "Thews of England."

Crown 8vo, Illustrated, \$1.50.
A stirring story based upon an imaginary war between Great Britain and Germany shortly after the opening of the Panama Canal. Through a series of accidents an unwilling but courageous newspaper reporter is forced to become an eye-witness, almost a participant, of the naval operations in the West Indies. His vivid and startling accounts of modern warfare—hideous and ghastly scenes on board one of the new ghastly scenes on board one of the new naval fighting machines in action—are extremely powerful.

OLD TESTAMENT and LIFE OF JESUS

BIBLE LANDS, BIBLE CHARACTERS AND EVENTS REAL

By Rev. WILLIAM BYRON FORBUSH, Ph.D., Litt. D. Author of "THE BOY PROBLEM," Etc.

These two original, vivid and inspiring Courses are arranged to accompany Davis', Murray's all Sunday school and personal Bible study Lessons, or for use independently. The plan is to teach Bible history while students are in the very atmosphere and presence of the places where that history was enacted.

W. G. BALLANTINE, D.D., LL.D., Springfield Training School: "Dr. Forbush's idea of using the stereograph in Bible classes is an inspiration of genius."

Mr. EDWIN F. SEE, General Secretary, Brooklyn Y. M. C. A.:

"Thave used in class work stereoscopes and stereographs suggested for the use of Bible courses by Dr. Forbush through Underwood & Underwood. I believe this plan to be in line with the very best Bible study. It gives what is very much needed—reality to the persons and scenes of the Bible."

CHARLES F. POWLISON

Special Secretary, West Side Y. M. C. A., New York: "We have been using the 'Travel Lessons' by Forbush in our Association the past year along with about a dozen other courses and count it by far the most successful. The class continued the longest and maintained its full quota of attendance and interest to the last."

rull-page plates, 2 pages colored maps, Eastern and Western Hemispheres, special frontispieces, black silk cloth, side and back title in gold, 63/4 x5 inches, 75c.

A Dictionary of Dictionaries, containing all the principal features of the large cumbersome lexicons, the encyclopedia and the gazetteer; covers 27 special copyrighted features, more than has ever been granted any one lexicon by the Librarian of Congress.

Webster's Modern Dictionary

There are dictionaries and then there are dictionaries, but only one Webster's Modern Dictionary .- Ram's Horn.

INTERMEDIATE SCHOOL EDITION.—Just Issued. New Plates used exclusively for this edition. Thirty thousand words, 5,000 synonyms, arranged in direct connection with vocabulary words, plurals of nouns, degrees of adjectives and present, past participles and imperfect forms of verbs. Words beginning with Capitals, indicated by Capital initials. 450 text illustrations, 458 pages, special frontispiece, two pages flags of the

Nations in colors, black silk cloth, gold stamping 50c.

ELEMENTARY SCHOOL EDITION. — Printed from different plates than other school editions. Vocabulary words in bold, black type that will save the children's eyes. More than 25,000 words and definitions, special engravings, bold-face type for all vocabulary words. 416 pages, black silk cloth, gold stamp, 30c.

This series of dictionaries contains more new words than any similar set of lexicons published in this country or Europe. Each volume contains a key to pronunciation foot of each page. The diacritical markings are simple and based upon standard authorities, recognized by all educators and used in all schools. Uniform in design and the best adapted for all grades, literary work and general use.

"WE do not know of a more thoroughly useful little book for any young man's library—nor any young woman's either.

"The language is terse, practical, clean; no preaching is in evidence; nothing dogmatic. It is replete with new, refreshing thought, and can be enthusiastically recommended."

DES MOINES MAIL AND TIMES.

"Young people are better off for reading books of good counsel, and any young man or young woman can find much for their profit in this well-written and charming volume."—Herald and Presbyter.

Circulating Libraries For Sale

THERE are now in circulation in the United States fully a million Tabard Inn Books. People carry them around everywhere and exchange them wherever they find a branch Tabard Inn Library. The immense number of these books in circulation has created a growing demand for branch Libraries. To meet this demand we are selling Tabard Inn Libraries outright, giving with each sale the privilege of exchanging all the books in bulk for other books as often as the merchant chooses and at very small expense. A 25-Book Library costs \$25.00; a 50-Book Library costs \$45.00; a 75-Book Library costs \$62.50; a 100-Book Library costs \$85.00. With each Library purchased we give a handsome Tabard Inn Book Case FREE.

We furnish a Book List of 1,000 Titles from which to make your initial selection. You can make your own selection of Books and we ship these Books and the Bookcase by freight immediately upon the receipt of your order. We supply full directions as to the best method of managing the Library, not only to attract patronage, but to make a good profit out of the Library business. There is no way in which you can invest One Hundred Dollars and get from it such

large daily cash returns.

How to Operate a Library

The usual charge for exchanging a Tabard Inn Library Book is Five Cents. A few Libraries charge Ten Cents, others charge a cent a day or two cents a day, or five cents a week or ten cents a week. When you purchase your Library outright you have the privilege of making whatever local terms with your members that you choose. The labels in the books are adapted to any of the above mentioned prices. One Hundred Books rented at Two Cents a day will bring you \$50.00 a month, or at One Cent a day \$25.00 a month. You get your original investment back in a few months. A 200-Book Library will bring you in a handsome income. But the storekeeper must not overlook the fact that the Library will attract custom to his store. Some Merchants find the income from this source more valuable than the Library fees which are charged. There is nothing so pleasing in a shop as a display of beautiful books.

We Exchange Libraries

You can send back Library Books as often as you like, and we will exchange them for others at a cost to you of only Five Cents per volume, you to pay the carriage both ways. In this way you can keep your Library fresh and attractive all the time and at very small expense.
